

Garden Montessori

Learning About Machines

January 23, 30; February 6, 13 and 27 2012

11:30 am – 2:00 pm

Cost: \$130.00 per child

This camp is open to ages 4 and up

Children love to be scientists; they like to touch, examine and experiment with everything around them, to find out “How it works.” In this camp, your child will learn:

- Science concepts: levers, wheels and axels, pulleys and gears
- Creation of inventions, machines and devices to help solve problems and apply math and science principles
- More about how the world works
- About working with Lego’s Sara & Sam to solve problems and create inventions to help them make life better
